Career Objective:

Passionate web developer skilled in React, HTML, CSS, and JavaScript, seeking a dynamic role to leverage my expertise in crafting immersive user interfaces. Proficient in ReactJs & Next.js for seamless client-side rendering and also have good knowledge of MongoDB. Committed to delivering cutting-edge web experiences that blend functionality with a sleek design. Eager to contribute innovative solutions to a forward-thinking development team.

SUMMARY

- I am a Web developer with nearly 2 years of experience.
- I have knowledge in JavaScript technologies like ReactJS, React-Redux, NextJS.
- I have basic knowledge of back-end technologies like NodeJS, GraphQL.
- Expertise in creating functional components that can be reused throughout the application and excellence in managing states of the components throughout the system.
- Good command of GitHub, Gitlab, Skype, Slack, Jira, etc. A good team member with Excellent communication and logical skills.
- I like to upgrade my skills as per the project requirements.

Educational Qualification:

Course	Institute Name	Board	Passing Year	Percentage (CGPA / %)
B.E. (C.E)	VVP, Rajkot	GTU	2023	8.26
H.S.C.	Shree B.M Patel High School, Dhrol - 361210	GSEB	2019	78%
S.S.C.	Shree B.M Patel High School, Dhrol - 361210	GSEB	2017	81%

Experience:

- **Bonzark Technologies** – 1 year & 9 month (Present)
- **Qtonz infosoft** – 2 month (Present)

Project Experience:

- **Location tracker app (Express, socket.io, MongoDB):** I have hands-on experience developing backend services for Android applications using Express.js, MongoDB, and Socket.io. My work includes implementing features like location sharing, user CRUD operations, friend management (add, remove, accept, reject), and both one-to-one and group chat functionalities. I have also integrated real-time notification systems to ensure seamless user interaction.
- **Jaycar [Reactjs(typescript) ,Storybook, Algolia]:** JayCar is an innovative Australian e-commerce project designed to provide a seamless online shopping experience for digital electronics enthusiasts. The platform is built on the robust foundation of React, ensuring a dynamic and responsive user interface. JayCar specializes in offering a diverse range of digital electronics items, catering to hobbyists, DIY enthusiasts, and professionals alike.
- **Become Your Creator [Reactjs, MongoDB, MaterialUi] :** This is an e-commerce web portal - Sri Lankan fashion industry to be the leading fashion brand in the Island. I have developed many functionalities like search, filters, multi-currency support, e-vouchers, wishlist, etc. for this web portal.
- **DigiDoe (Reactjs, Mui, Styled-Components) :** Digidoe is a cutting-edge project showcased on my resume, developed using ReactJS, styled components, and Material-UI (Mui). Serving as a Banking as a Service (BaaS) component, Digidoe demonstrates my proficiency in front-end technologies and a keen understanding of financial service systems. The project highlights my ability to create responsive and visually appealing user interfaces while integrating essential functionalities seamlessly. Through Digidoe, I've showcased my skills in ReactJS development, styling with precision using styled components, and leveraging the versatility of Material-UI to build a robust and user-friendly banking website.

Nivalnc (Nextjs, TailwindCss) : "Nivalnc is an innovative project developed on Next.js and Tailwind CSS, delivering static sites for the dynamic world of export business. Specializing in ceramic tiles, porcelain tiles, and epoxy products, Nivalnc is dedicated to showcasing the thriving tile industry of Morbi City. With a Focus on seamless user experience and visually appealing design, the project aims to elevate the online presence of Morbi's export business, fostering global connections in the tile market."

- **The DetailDoctors [Html, Css, Js]:** "The DetailDoctors project in Torrento is a web-based platform developed using HTML, CSS, and JavaScript. It focuses on providing convenient online services for car owners, specifically in the realms of car washing and interior design. The platform allows users to book car washing slots online, ensuring a hassle-free experience. Additionally, it caters to inquiries related to the interior design of cars, providing a comprehensive solution for car owners looking to enhance the aesthetics of their vehicles. The integration of these features makes DetailDoctors a user-friendly and efficient online hub for automotive care services in Torrento."
- **Innovative Care [Html, Css, Js] :** Innovative care is formed by a group of families who wanted more for their children who lived with disability and had become marginalised by society which is Static Site and its Build up on Core Html, Css and Javascript.

Technical Skills:

- Html, Css, Javascript, Bootstrap, Tailwind css, Material UI, Reactjs, Redux-toolkit, Nextjs, Nodejs, MongoDB, express
